## Centenary Flat Roof

The flexible design allows the Fielders Centenary Flat Roof to be a stylish addition to any home.

The Fielders Centenary Flat Roof is a stylish and attractive addition to any home. Whether it is attached or freestanding, this product is engineered for strength. It features colour coated external brackets, which make installations that much easier. The Flat Roof Verandah is extremely flexible in its design allowing various roofing and guttering profiles to be used including Fielders Quad Gutter. The high gloss, high tensile roofing features a mirrored ceiling like finish, for an impressive look that you will be satisfied with for years to come.

The adaptability of the Fielders Centenary Flat Roof is evident when it is combined with Fielders pitched section units. The pitched section product can be utilised as a pitched section only, or the more popular pitched with flat. Using both 108mm and 158mm beams, the spans and flexibility achieved meet all customer expectations.

With a high gloss finish all over, this product is sure to be looking good all year round.

- Available in attached or freestanding designs.
- Flexibility in design and stylish in appearance.
- All brackets manufactured from high tensile steel.
- Double rolled beam provides larger spans.
- Choice of different gutter and roof profiles.
